where were we a year ago?

# Introduction to the GNOME Shell

Owen Taylor  
Gran Canaria Desktop Summit  
5 July 2009

# Moblin 2.0

Moblin 2.0

# Clutter 1.0

# Moblin 2.0

- ✓ API stability & clean up
- ✓ simple animation API
- ✓ reworking of all the internals

A group of people, including men and women, are performing a traditional dance in a museum gallery. The women are wearing traditional skirts with a black and white pattern and are barefoot. The men are wearing dark clothing. The background features large, intricate Polynesian carvings and murals. The text "Clutter 1.2" is overlaid in the center of the image.

# Clutter 1.2

- ✓ layout managers
- ✓ performance improvements
- ✓ enhanced portability
- ✓ serializable animations

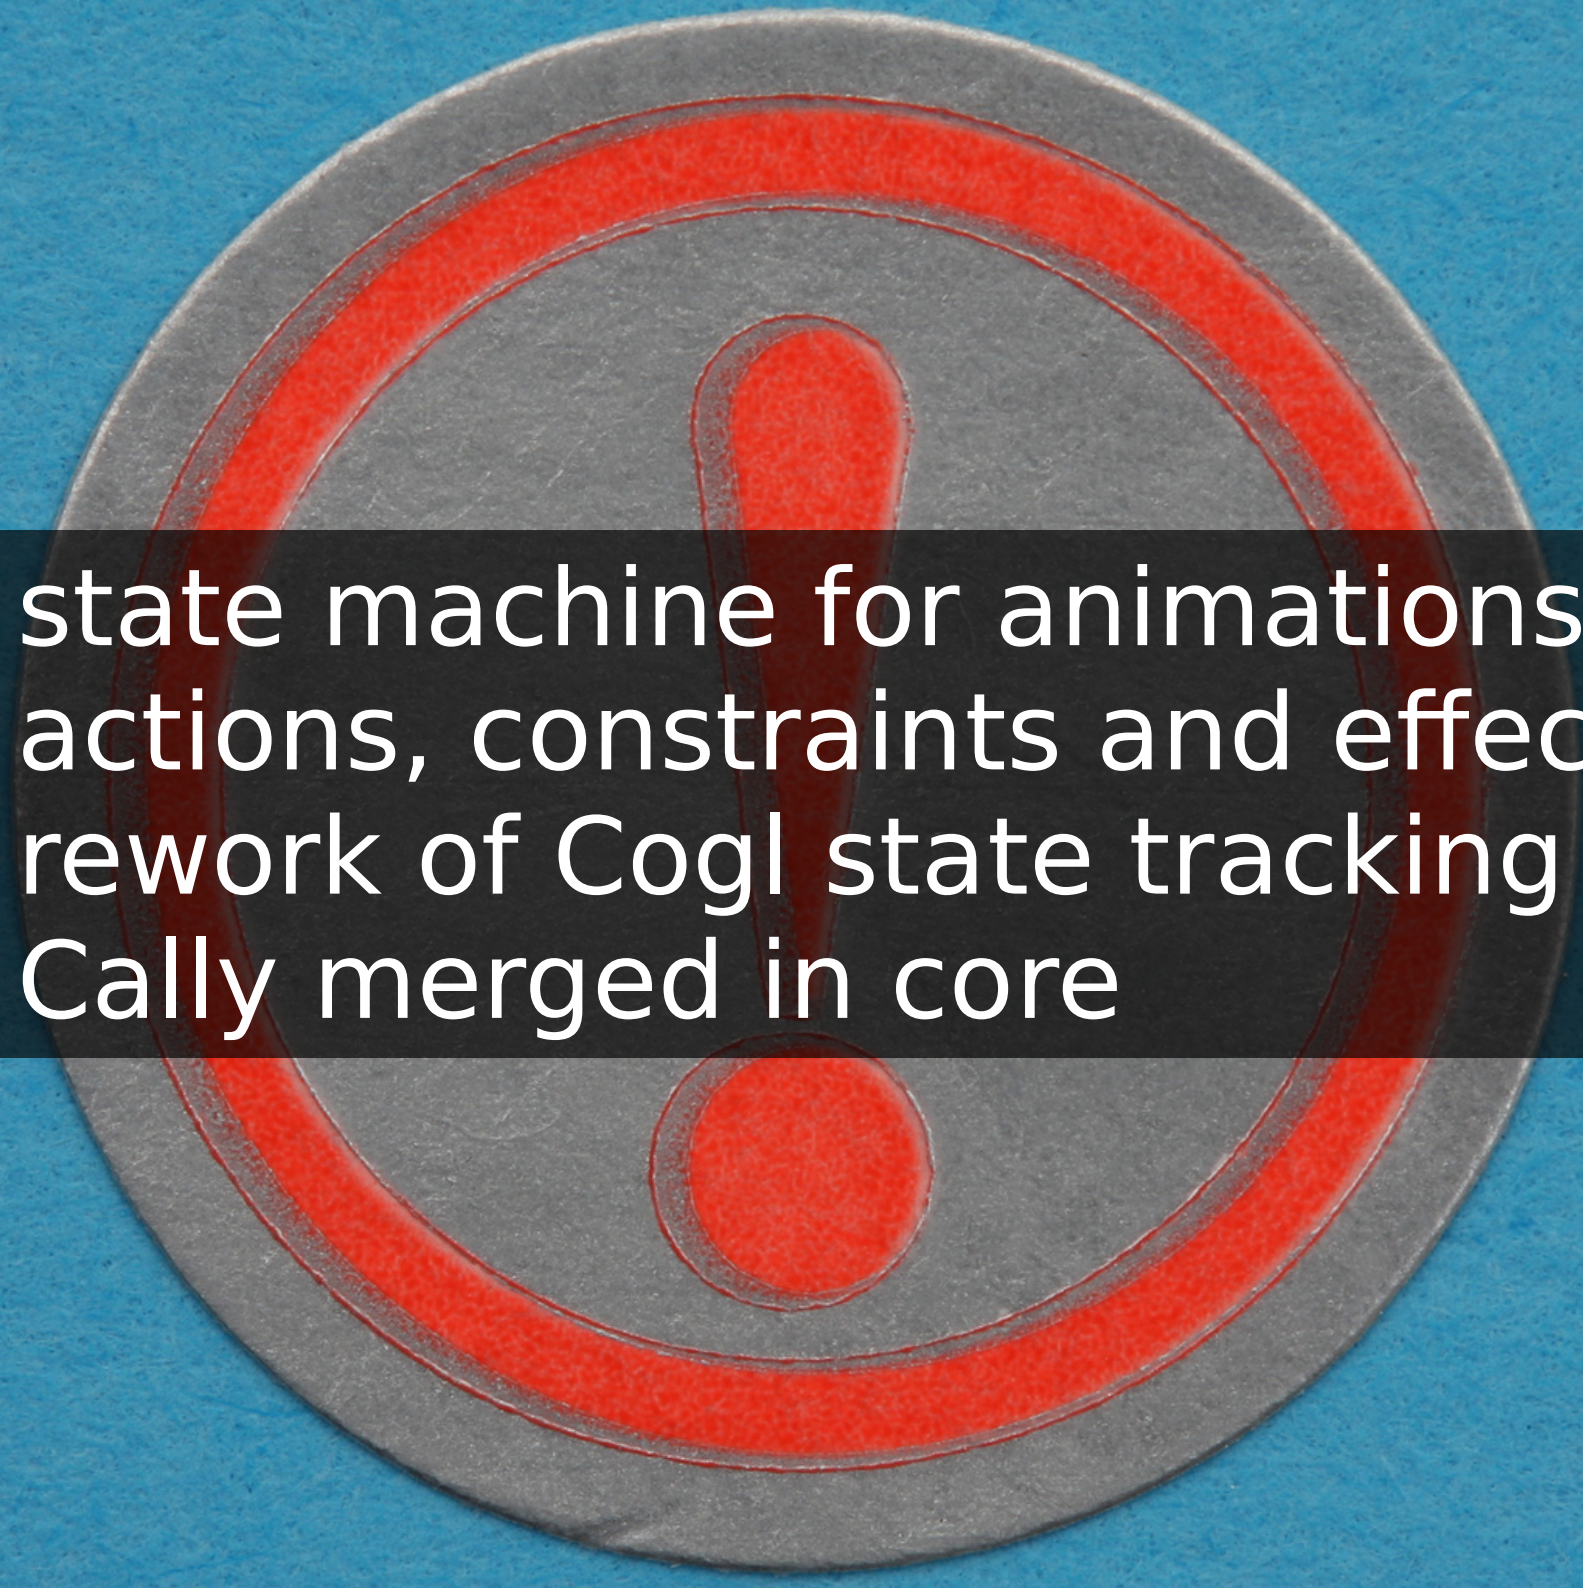

# Clutter 1.4

- 
- ✓ state machine for animations
  - ✓ actions, constraints and effects
  - ✓ rework of Cog1 state tracking
  - ✓ Cally merged in core

ClutterState

any state  $\rightarrow$  named state  
named state  $\rightarrow$  named state

# deserialization with ClutterScript

```
{
  "type" : "ClutterState",
  "transitions" : [
    {
      "source" : null, "target" : "show", "keys" : [
        [ "foreground", "y", "linear", 1024 ],
        [ "background", "opacity", "linear", 0 ]
      ]
    }
  ]
}
```

actions, constraints and effects

OOP by **composition**, not inheritance

stacking

actions → how does the actor **react**?

user input and feedback

drag and click

constraints → how is the actor **positioned**?

A photograph of a large stack of red shipping containers arranged in a grid-like structure. The containers are stacked in multiple rows and columns, creating a complex, multi-level structure. The sky is clear and blue. In the foreground, a yellow forklift is visible, positioned near the base of the container stack. The text "fixed layout management with a twist" is overlaid in white on a semi-transparent dark background across the middle of the image.

fixed layout management with a twist

effects → how does the actor **paint** itself?

A person in a suit is walking through a dense forest of vertical, glowing light tubes in various colors (red, yellow, green, blue, cyan, magenta). The scene is dark, with the light tubes providing the primary illumination. The person is silhouetted against the bright lights. A semi-transparent black banner with white text is overlaid across the middle of the image.

offscreen buffers, vertex buffers and shaders

A black metal chain is in the foreground, with a blurred, colorful bokeh background. The background consists of various colored lights (yellow, green, red, blue) that are out of focus, creating a bokeh effect. The chain is made of dark, heavy links and is positioned in the foreground, partially obscuring the background.

blur, colorize, deform, desaturate

A black puppy is sitting on a grey carpeted floor in front of a white door. The puppy is wearing a gold chain with a large, shiny dollar sign pendant. The text "create your own!" is overlaid in white on a semi-transparent grey rectangular background across the middle of the image.

create your own!

A large satellite dish antenna structure is shown at night, illuminated from within. The dish is a complex lattice of metal beams, and the central hub is brightly lit, casting a glow on the surrounding structure. The background is dark, making the illuminated structure stand out. The text "state tracking in Cogl" is overlaid on the image in a white, sans-serif font, centered horizontally and partially overlapping the illuminated structure.

state tracking in Cogl

HACK LIKE

**programming** the GPU like the grown-ups do

A CHAMPION

TODAY

CHANGE

**fewer** state changes

future: re-organize the paint sequence

**cally:** accessibility library

A LEGO minifigure with orange hair, a red shirt, and blue pants, holding a black cowbell. The text "MOAR! MOAR COWBELL!" is overlaid on the image.

MOAR! MOAR COWBELL!

if you are in there, thank you!

if your aren't, **what are you waiting for?** 😊

the future!

\* more integration

XSETTINGS

XKB

XI2

\* more performance tuning

- fully retained paint model
- re-organization of the paint sequence

\* more backends

- wayland
- gdk?

\* cogl in charge

CoglDisplay, CoglRenderer, CoglProgram

sliced Stages, multi-head support

\* \${INSERT\_YOUR\_FEATURE\_REQUEST\_HERE}

cheese

A glowing blue neon tube sculpture of a question mark is displayed inside a circular frame. The sculpture is composed of a single continuous tube that forms the question mark's shape. It is held in place by several small blue clips. The background is dark, and the overall lighting is a vibrant blue. The text "Questions?" is overlaid in white on a dark rectangular background in the center of the image.

Questions?

**T h a w k**

**Have fun!**
